LOOKOUT FOR THE MURDERER

CHIEF COLLINS GETS WORD TO WATCH FOR DOMENICO CHUILLE, ITALIAN

KILLED LUIGI BASILLE IN ALLEGHENY PENNSYLVANIA

WARRANTED ON CHARGE OF HAVING TROUBLE WITH CONDUCTOR.

Jack Tidworth of Melber Section Reports Loss of Bay Mare Belonging to Him.

Chief James Collins of the police force yesterday received a message from Allegheny, Penn., asking that a lookout be kept for Domenico Chuille, an Italian who is wanted at that city for killing Luigi Basille, another native of sunny Italy. The killing occurred in Allegheny October 20th, and the authorities there think the slayer is headed through this section of the country, having made his escape. He is described as about 24 years of age, weighs 165 pounds, parts his hair in the middle, and wears his hat thrown to one side, and towards rear of his head. The Paducah chief got the message from Chief John Glenn of the Allegheny force, and the local authorities have investigated in the Paducah quarters utilized by the Greeks and Italians but find the accused is not here.

For Forty-Eight Hours a British Virtuoso Thumped the Keys.

London, Eng., Oct. 26.—Forty-eight hours of continuous piano playing is the record established by Napoleon Bird of Stockport. At a local hall he sat at the piano from 10 o'clock on a Tuesday evening to 10 p. m. the following Thursday, fingering the keys and producing melody without intermission.

During the forty-eight hours Mr. Bird played 1500 different pieces, accompanied three concerts and played for two balls.

Mr. Bird, who is 51 years old, was cheered in his task by the presence of his wife, who sat by his side the whole time. He was roused from exhaustion and sleepiness by showers of eau-de-cologne sprayed upon him. He was also shaved, but he never ceased playing.

COPYRIGHT ON WORD KENTUCKY

State's Plans to Protect Products Made in This State.

Washington, D. C., Oct. 26.—R. M. Allen of Lexington, one of the principal organizers of the people's lobby, says the food and drug act will copyright the word "Kentucky" exclusively for products made in that state.

"The law, as it applies to whiskies," said Mr. Allen, "will require straight whiskies to show their true age. Mixtures of straight whisky and neutral spirits will be allowed on sale as 'blended spirits'."

"If color or flavor is added in imitation of the color and flavor of some other article it will be necessary to label the mixture 'imitation whisky,' or 'imitation brandy.'"

"Our Kentucky fruit and vegetable manufacturers should prepare to give up the use of preservatives in all of their products. Mr. Hitt, food commissioner of Idaho, recently wrote to all of the state authorities for advice, and the almost unanimous opinion was for the total prohibition of antiseptics in all foods, and all the states have already the law to back these opinions."

"It also looks as if the national law will back the states. The antiseptic used by Kentucky firms is benzoic acid or benzoate of soda. It is used in catsup, sweet pickles and cider."

"The Kentucky law already requires such foods, containing this antiseptic, to be so labeled. The operation of the law undoubtedly will prohibit the mixture with a food or drink of any substance which in itself is unfit for food or beverage."

DISCOURAGES MARRIAGES OF DIVORCED PEOPLE

EX PARTE SUIT WILL BE FILED BY CITY AUTHORITIES

QUICK ACTION WILL BE GOTTEN ON THE QUESTION OF WHETHER THE CITY OR PROPERTY OWNERS HAVE TO BEAR EXPENSE OF PUTTING DOWN THE STORM WATER SEWERS ON KENTUCKY AND JEFFERSON AND CROSS STREETS—PARK COMMISSIONERS WANT MORE MONEY WITH WHICH TO IMPROVE LANG PARK.

From the expressions heard it is more than probable that this afternoon the finance committee of the municipal legislative boards will order the ex parte suit filed in the circuit court so there can be determined whether the parties owning property abutting Kentucky avenue from Second to Ninth, Jefferson from Second to Ninth, and Sixth, Seventh and Ninth between the avenue and Jefferson street can be compelled to pay for laying the storm water sewers running in front of and beside their lots. In fact it is a certainty, as enough of the committee has expressed itself in plain terms to indicate their intention of letting the suit be instituted and quick settlement brought to the matter, and at small cost in this manner. The property owners contend that when they paid for the sanitary sewers fronting and running beside their property the cost of this reached the limit that any property can be taxed for general sewerage, and that now the municipality has to pay out of the public treasury for this storm sewer work. The property owners intend fighting payment of the expense of laying these storm sewers, and rather than get into long drawn out litigation the city will have the ex parte action filed. It will cost only about \$50 to settle the point in this manner, and a quick adjustment can be gotten, as ex parte actions can be taken up immediately by the judges and decided.

and do not have to wait their turn on a crowded docket like other litigation. Judge Reed can decide it within a few days after it is filed and it can then be sent to the appellate court for consideration.

The full legislative boards have referred to the finance committee the matter of filing the suit, and Chairman W. T. Miller of this committee will call that body together this afternoon at 2 o'clock at the City Hall for the purpose of determining whether or not the step shall be taken. The committee this afternoon during their meeting will receive the public park commissioners to discuss finances the latter need to pay for the concrete curbing and coping to be placed around Lang Park and Fountain avenue and Monroe street. The commissioners opened bids for the proposed park work several days ago, and find it will cost something like \$1,750 to do the work. The commissioners have only \$1,500 at their disposal for this year, and they want the finance committee to recommend to the full legislative boards that another \$250 be allowed the park board so the improvement can be made as desired at the Lang Park. For purpose of talking this over the commissioners have been invited to meet with the finance committee. The park people are holding up the question of awarding the contract for the needed work until they find out whether or not they can get the remaining \$250 necessary.

GRATIFYING TO JEWS.

Jacob Schiff Sees Things Coming Their Way in Two Appearances.

New York, Oct. 26.—"President Roosevelt's proposed appointment of Mr. Straus to a place in his cabinet is most gratifying," says Jacob H. Schiff, the financier. "It is a singular and a noble coincidence that the ambassador comes almost simultaneously with the appointment of Gen. Picquart, who championed Dreyfus, to the portfolio of war in the new French cabinet."

"It is that Mr. Straus' appointment is only a well-deserved compliment to his man and his qualifications, and at the same time a desire on the part of the president to recognize the Jewishness of the Jews of the United States."

Miss Catherine Flournoy today left for her home in Fayette county, Tenn., after visiting Mrs. Carrie Flournoy.

RESERVOIRS' EXPLOSION

MISS JESSIE PARKINS AND ETHEL SIGHTS CUT BY GLASS.

EXPLOSION OCCURRED DURING DEMONSTRATION

PROF. PAYNE TO GO TO GRAHAMVILLE IN PLACE OF PROF. CHERRY.

Delightful Literary and Musical Program by Mrs. Dorian's Pupils—School Matters.

Miss Jessie Parkins and Miss Ethel Sights of the High School department were slightly cut upon the face and hands yesterday by flying glass by explosion of the apparatus used in the scientific department of the Washington building. The cuts just broke the skin and are not serious.

A demonstration was being given the pupils in hydrogen-gas, and for this the professor has two large reservoirs. The little jet is not to be turned on and lit until all the oxygen escapes from the reservoirs, but yesterday the match was applied a little too soon, not however, until all the oxygen had passed out. Application of the match to the jet caused the oxygen to explode and blew up the reservoir, which sent the glass scattering around, but the consequences were nothing serious, as this occurs often. This is the first time, though, any of the pupils have been cut by the fragments.

President Won't Come.

Today the county school teachers hold their monthly literary meeting at the Grahamville school of the rural districts and the main speaker of the day was to have been President Cherry of the West Kentucky Normal school of Bowling Green, Ky. Those rooms now having more than the regular number of scholars will be drawn from in forming other classes for the additional rooms. Superintendent of buildings Fred Hoyer, who is preparing the new rooms, thinks it will be the first of next month before they are ready for use.

Gist of Advice of National Liquor League President.

Newark, N. J., Oct. 26.—At yesterday's session of the National Liquor league's convention, President Hugh Dolan made his report. He urged that the organization strengthen its means of defense. He said: "So much has been accomplished by the Anti-Saloon league that it would seem unnecessary to call attention to the greater danger that confronts us; but the fact remains that there are those engaged in the business who appreciate the gravity of the situation only when it is too late to prevent the passage of oppressive laws."

NEGRO DRIVEN OUT OF CASEY, ILLINOIS

An Aggregation of Angry Men Forces Every Negro to Leave.

Casey, Ill., Oct. 25.—The excitement over the negro question has subsided, and all the negroes have left the city with the exception of who have lived for some time in private families. The trouble arose over the fact that a negro employed at the St. Charles Hotel insulted a white girl employed at the same place and a mob hastily gathered, determined on violence. The police and other persons sworn in as deputies drove the would-be lynchers from the lobby of the hotel, after which the negro was spirited out by a rear entrance, and taken to a train leaving the city. The mob then went to Arlington, but the negro porters and the chief had absented themselves. Casey is putting in a sewer and water works system, and in the absence of white labor a number of negroes were brought here by the contractors. A number were also employed in the oil field. All immediately disappeared because of the mob spirit displayed here.

Slayer of Three Given Maximum Punishment at His First Trial.

Louisville, Oct. 25.—For thirty-five minutes the jury that tried Clarence Sturgeon, the triple murderer for shooting down Ira Burner, deliberated last night in the criminal court, then returned a verdict of death. The evidence had occupied the entire day, and Attorney William Sweeney spoke for an hour and a half, protesting the right of his client to take the lives of the men who, it was contended, were threatening him. Commonwealth's Attorney J. M. Huffaker followed, speaking only forty-five minutes, and appealing for such a verdict as would vindicate the claims of this lethargic community to being lawabiding. Mr. Huffaker's address was clear, pointed, logical and tremendously vigorous.

RUNNING SORES COVERED LIMBS

Little Girl's Obstinate Case of Eczema—Instantaneous Relief By Cuticura—Little Boy's Hands and Arms Also Were a Mass of Torturing Sores—Grateful Mother Says:

"CUTICURA REMEDIES A HOUSEHOLD STANDBY"

"In reply to your letter I write you my experience, and you are privileged to use it as you see fit. Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble."

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointed them with the Cuticura Ointment, and then gave him the Cuticura Resolvent. In about three weeks his hands and arms healed up; so we have lots of cause for feeling grateful for the Cuticura Remedies. We find that the Cuticura Remedies are a valuable household standby, living as we do twelve miles from a doctor, and where it costs from twenty to twenty-five dollars to come up on the mountain. Respectfully, Mrs. Lizzie Vincent Thomas, Fairmount, Walden's Ridge, Tenn., Oct. 13, 1905."

JOKE PLAYED RAILROAD MAN

INSOLENCE OF WAITERS SURPRISED THE AGENTS, BUT IT WAS JUST IN FUN.

New York, Oct. 26.—Nearly 200 prominent railroad men from all parts of the United States, Canada, and Mexico were treated to a surprise at Atlantic City the other night, when they were guests of the united proprietors of the larger hotels of that resort at a breakfast dinner given in the Hotel Rudolf as a wind-up to the annual convention of the American Association of General Passenger and Ticket Agents.

There was astonishment when the road agents were ushered into the kitchen of the hotel instead of the dining room. The buzz grew louder when, as they were about to seat themselves, the waiters lined up and struck for higher wages. There was a parley with an important looking person, and this person restored peace by promising the waiters that they could have anything they wanted if they would not "throw him down" on this occasion.

With a sigh of relief the railroad men settled down to enjoy their breakfast, but wonder was expressed that except themselves nobody was present but clumsy-looking waiters. The perplexity increased when an agent beckoned to a waiter and slipped half a dollar into his hand, with the remark: "Look out for my friend and me, will you?"

"Say, you go to —," replied the waiter, tossing the coin back.

Before the indignant diner had a chance to reply another waiter entered the room carrying a large tray of beefsteak and puffing vigorously at a huge, black cigar.

"Well," remarked another railroad man, "there sure is beautiful discipline in this hotel. What do you think of a waiter smoking?"

"Shut up, you darn fool," interposed the waiter, overhearing the remark, "I'm the head waiter."

Half a dozen instances of this kind occurred, and the agents were about to rise in a body and depart, when the "head waiter" doffed his cap and apron and revealed himself as Mr. Bell, president of the Hotel Men's association. All the other waiters followed suit, and it appeared that the guests had been served by the hotel proprietors themselves. Thereupon Charles L. Stone of Louisville, general passenger agent of the Louisville & Nashville road, and who had just been elected president of the agents' association, arose and gave thanks to the hosts, peace was restored, and the breakfast was dispatched without rebuke.

New York, Oct. 26.—The World says the statement was made yesterday by a high authority that the Chicago story that an agreement has been reached between Stuyvesant Fish and K. H. Grammar, now vice-president of the New York Central lines west of Buffalo, is untrue, and that there has been no change whatever in the attitude of the two interests.

LIQUOR MEN WILL BE BARRED FROM KNIGHTS OF PYTHIAS

New Orleans, Oct. 26.—A sweeping anti-liquor statute was passed yesterday by the Supreme lodge, Knights of Pythias. The new statute is expected to bar from entry to the order wholesale liquor dealers and hotelkeepers who run bars in connection with their hotels. With the exception of these two classes, all other liquor dealers were excluded by the old statute, which was superseded yesterday.

The new statute includes "professional gamblers, saloonkeepers, bartenders or dealers in spirituous, vinous or malt liquors." The most important changes in the new reading are the substitution of the word "dealers" where formerly "retail dealers" stood, and the dropping of the classes "bona fide hotelkeepers," which the old law specifically mentioned as eligible. The new statute does not affect any who are already members of the Knights of Pythias.

The Masons vs. Liquor Dealers.

One of the most important questions ever brought before the Grand Lodge of Kentucky Masons was settled at the meeting of this body in this city when on Oct. 18, by a vote of 418 to 32, liquor dealers, including wholesale distillers and even druggists

who sell liquor as a beverage, were barred from ever entering a Masonic lodge in the future. There were a great many speeches made some even wanted to exclude those already members who are engaged in the business. Others wanted to refuse clerks, distillery hands, and even drivers, but this was left to the individual lodges.

Thus another and severe blow has been struck the liquor business. Whatever of respectability once connected with this business is fast fading away. It is tabooed in good society, in churches, in benevolent organizations, among the best people of all classes. It would be really pathetic to see how fast this mighty giant is falling if his iniquities did not prelude sympathy and invite contempt and the fervent wish that it may be with accelerated motion. It is now surely time every organization claiming to be a church had taken a stand on this matter.—Baptist Argus, Louisville.

The grand lodge of Mason in session at Louisville last week put themselves strictly to the front in the matter of Masons dealing in the liquor business. Hereafter no man who is a dealer in liquor, as a beverage, can be admitted to membership.—Fulton Methodist.

CITY REGULATES STREET CARS

SUPREME COURT OF ILLINOIS UPHOLDS RIGHT OF CITY TO SO LEGISLATE.

Has Right To Prevent Overcrowding and Order Care of Life and Limb.

Chicago, Oct. 26.—The attempt of the Chicago City Railway Company to nullify a bill of injunction the city ordinance of Chicago requiring street railway companies to furnish sufficient cars and to transport passengers without crowding is defeated by a decision of the Illinois supreme court handed down yesterday morning. The street railway company was victorious in the lower court, which held that the ordinance was invalid because its requirements were unreasonable. The supreme court reverses the circuit court of Cook county and says: "A court of equity has no jurisdiction to interfere with the prosecution for criminal offenses. Courts of equity deal only with civil and property rights and their powers do not extend to determining what laws or ordinances are valid unless such determination is incidental to the protection of rights recognized by the courts of equity alone. The ordinance in this case is within the powers conferred upon the city and has for its laudable purpose the protection of the traveling public against discomfort, annoyance and danger. It is designed to promote public comfort, safety and health by preventing the overcrowding of cars and it should be sustained if it is legally possible to do so. To grant an injunction and prevent the prosecution of offenses against the ordinance during the progress of a chancery cause would be to render municipal authorities helpless in the discharge of public duties. The imposition of many penalties for many violations does not amount to irreparable injury to the company. An offender by multiplying his offenses can not invoke the aid of a court of equity."

AN EXCITING TRIP FOR BRITISH VESSEL

Crew of Bark Don Gets Drunk on Cargo of Booz.

Victoria, B. C., Oct. 26.—The British bark Don, which arrived here today after a belated passage from Glasgow, with a general cargo including shipments of liquor and explosives, rifles and cement, had an exciting voyage. The vessel was in collision with a French ship in the Irish channel soon after starting and put back to Plymouth for repairs, then a call was made at Montevideo to land Capt. Jeffries, who was ill. From there the mate, Capt. Roach, took charge. Off Cape Horn, where heavy weather was encountered and the vessel was hove to under storm sails, the crew broke into the shipment of liquor and all hands became intoxicated. They refused to work the ship, which lay helpless, threatening to drive ashore on Horn Island. A change of wind alone saved her. From that time on there was more or less liquor abstracted from the cargo and more intoxication and fighting, until finally the captain got control by threatening to use firearms and managed to make port without any further serious trouble.

ORATOR OF THE DAY FOR ELKS

HON. HAL S. CORBET WILL DELIVER THE ORATION AT EXERCISES.

The General Eulogistic Address on Departed Brethren Will Be Delivered By E. W. Bagby, Sr.

Hon. Hal S. Corbett, the attorney, will be the orator of the day for the annual memorial services to be conducted by the Elks' lodge the first Sunday of December, while the general eulogistic address commemorative of the departed brethren will be delivered by Hon. E. W. Bagby, Sr. This was decided upon last evening during the meeting at the Elks' home of the committee on arrangements, which has Mr. Rodney Davis as chairman. There are several other features connected with the ceremonies that have not yet been fully decided upon by the committeemen, who will have this done within the next week and everything completed as pertains to the exercises.

The ceremonies will be held the Sunday afternoon in question, commencing at 3 o'clock, at which time the lodge members will occupy seats upon the stage of the Kentucky theatre where the exercises have been conducted for several years past.

Since the exercise last December, the lodge has lost three members: Colonel Mike Johnson, Judge David Saunders, and Captain George O. Hart all prominent citizens during life.

IMMUNITY FROM TUBERCULOSIS

Will Be Obtained by Vaccination in the Near Future is Prediction of a Philadelphia Specialist.

Syracuse, N. Y., Oct. 26.—Dr. R. P. Ravenel, assistant director of the Henry Phipps Institute, for the study of tuberculosis at Philadelphia, made some interesting statements yesterday in an address on "Hereditary, Portals of Entry of Infection and Immunity in Tuberculosis." Dr. Ravenel said it was reasonable to expect that in the near future persons would be vaccinated to make them immune from tuberculosis.

He said that nothing has done more harm in the effort to prevent tuberculosis than the belief by many that it is in the family and there is no use to fight against it. The speaker stated that 90 per cent of all persons upon whom postmortem examinations have been made have scars on their lungs where tuberculosis has been healed.

UNITED IN LIFE AND DEATH

Indiana Farmers, Long Friends, Die About Same Hour.

La Porte, Ind., Oct. 26.—"If you are taken away by death I want to join you in the beyond" was the remark frequently made by Shuyler Thomas, a Starke county farmer, to his next door neighbor, Edward Miller. The companionship between the two men made them inseparable. Several days ago Miller was stricken with typhoid fever. Within twenty-four hours Thomas fell a victim to the same disease. This morning death entered the two homes, about an hour elapsing between the deaths of the men, who will now be buried on the same day. Both men leave families.

OLIVER TWIST AND FAGIN IN REAL LIFE

Remarkable Case of Youngster Being Trained in Picking Pockets.

New York, Oct. 26.—When Hyman Grossman, a fifteen-year-old lad, was arraigned in the children's court yesterday on a charge of picking pockets he not only admitted the charge but swore that a man had taught him to steal and sent him out at 5 o'clock every morning to look for victims. The boy said his parents were dead and that he lived at 150 Ridge street, with Harry Stein, and the latter's wife.

"Does Stein know that you steal?" asked Justice Zeller.

"He is the one who put me up to it and taught me," replied the lad.

The youngster then went on to tell how Stein instructed him for weeks in the art of picking pockets before he sent him out. He said he had to practice for hours every day on Stein and his wife, relieving them of wallet, pocketbooks, watches and jewelry until he became so adept that he could rob them without their knowing it. If he did the job in a clumsy fashion Stein would beat him.

Stein, who was in court, was placed under arrest. The detectives later searched his house and found a quantity of stolen goods.

FIND LONG LOST GOLD MINE

Muskegon Adventurers Rediscover Legendary Treasure in Alaska.

Muskegon, Mich., Oct. 26.—Alaska's legendary gold mine, Lost Rocker, with its old cabin, old rocker and grindstone, unknown to any human being since 1866, when it was lost to record by the accidental death of an Indian trapper, has been rediscovered by Crate Campbell and Geo. F. Scott, Muskegon adventurers, who left here for Alaskan fields two-score years ago. They had grown white haired in their search for the treasure and only through losing their bearings and after suffering at death's door from cold and starvation did they stumble upon Lost Rocker. The mine is located on Douglas island, near Juneau. The find has been staked out and claimed by the Muskegon men and is expected to net them millions. Its gold when the mine was first discovered was the purest known and the name of Lost Rocker has been a coveted household word with gold hunters ever since. Relatives had given the two men up for dead.

"CLANSMAN" ORDER UPHELD

Philadelphia Court Refuses to Allow Play to Proceed.

Philadelphia, Pa., Oct. 26.—Judge Sulsberger in the common pleas court today refused to grant an injunction restraining Mayor Weaver from interfering with the production at the Walnut Street theater of "The Clansman," which the mayor suppressed as the result of a protest by leading negroes, who claim the play is inflammatory and an insult to their race. The play was opened at the theater last Monday night for a run of two weeks.

NORTHERN PEOPLE DON'T LIKE CLANSMAN

Philadelphia, Pa., Oct. 25.—Mayor Weaver has issued an order suppressing the further production of "The Clansman" in deference to the protestations of representative negroes. The order recited that "The Clansman" was calculated to produce disorder and endanger lives.

The Doctors and the Press.

The Register is in receipt of a copy of the resolutions adopted by the Kentucky state medical association, at its late session at Owensboro, protesting against the action of the large life insurance companies in reducing the fees for medical examinations of applicants for life insurance, and calling upon the newspapers of this state to aid the association in its fight against the proposed action of the companies.

We have no fault to find with the doctors in their endeavors to resist the reduction of their fees, but we do fail to see where the newspapers should take up the fight for the doctors. Among the trades and professions there is but one class that specifically prohibits its members from advertising, and that one class is the doctors. If every trade and profession adopted the same code of ethics, the newspapers would have to go out of business, for they cannot exist without advertisers. The doctors entertain reasons satisfactory to themselves for their attitude towards advertising, and we do not propose to go into the merits or demerits of that question. Each individual organization has the right to adopt their own regulations for their government. The doctors deny their members the right to buy advertising space, except what is known as a professional card, and on the other hand they are virtually in a trust when it comes to fixing and maintaining the fees. In other words, the doctor is something of a selfish creature when it comes to dollars and cents. He insists that the arbitrary schedule of fees adopted by himself and fellows, be maintained, and the resolutions adopted by the state association show how vigorously they resent any effort to reduce fees. This is natural, but it is queer that they now appeal to the newspapers to aid them, when from a financial standpoint they are but little, if any, benefit to the press.

The doctors as a class are among the cleverest fellows in the world, and whenever illness strikes us we want him to call at \$2 per call, for we will be powerful glad to see him, have him look wise as he thumps us, read his prescription and take it if it suits us. But on a cold paltry dollar proposition, the doctor is opposed to boosting the newspaper by using its advertising columns, and there is no reason whatever why he should expect the newspapers to fight his business battles for him.

As to the merits of the controversy between the doctors and insurance companies, that is a matter between them. The companies contend that they are moved by a desire to protect the policy holders by reducing expenses. The doctors contend that to reduce the fees means to employ cheap doctors, and in that way undesirable risks be imposed on the companies. The public may take either end it chooses.

When a proposition is before the people it is the province of the press to discuss the question in all of its phases, and the intelligence of the public will do the rest.

What the people of this county, state and city need is a new deal. The time has come in the history of Paducah to break away from the old moorings and to vote for a change. This can be done by voting for the

independent ticket for general council. The democrats say a vote for that ticket means the election of the republicans, and the republicans say a vote for that ticket means the election of the democrats. In this way they expect to appeal to the voters partisanship. But we say that if every voter in Paducah who desires a new deal will vote for the independent ticket, it will be elected. The corporations will be satisfied with either the democratic ticket or the republican ticket, for they have already arranged to have men on both tickets who will look after their interests in the general council. In the election of the independent ticket the people have a guarantee that the corporations will not dominate the general council. The issue is a very simple one—the corporations against the people.

Thursday night Madison Square Garden was packed by the workingmen of New York to hear William R. Hearst speak. The crowd was so great that it could not get in the building and he had to address two overflow meetings on the outside. It is predicted that Hearst will be elected governor of New York by from 150,000 to 200,000 majority. He is the man that the corporation organs throughout the country have been denouncing for months past. He was elected mayor of New York last year, by at least 30,000 majority, but was robbed of the office. The people of that city and state are determined to stand together for a new deal.

One of the corporation organs seems very much displeased at the Register's remarks in regard to the renewal of the fire hydrant contract. It says this paper attacked the mayor and the general council. Several plain and direct questions were asked Mayor Yeiser and the use of our columns tendered him for his answers, an invitation which still remains open. Reference was made to the acts of the council, and the records back up all we had to say on that subject. It is the truth that hurts.

The Register does not expect its utterances to meet with the approval of the corporation crowd, the barlows, the gamblers, the whisky interests, the adulterers and the newspapers that aid in the rape of the ballot by having an apprentice in its shop to commit a crime by setting up and printing bogus ballots and then supplying him with money to leave the city when the crime is being investigated and his employer also leaving the city for his health.

The "Nothing Doing" sign decorates the doors of the pleasure shops, commonly known as gambling dens in this city. It used to be that a clerk or bookkeeper could rob his employer and with the proceeds find almost any old kind of a game. But things have changed a little in the last thirty days. Some of the craft have gone to other states and the paraphernalia has been stowed away for a season.

In corporation circles it is a high crime to raise any question having for its object a better understanding of a proposition: The people must meekly accept what is placed before them without a murmur. But happily for the public all men and newspapers cannot be muzzled.

The light thrown on the proposed water contract by The Register yesterday caused many a business man and voter to pause and consider the proposition in its true light.

"Whom the Gods would destroy, they first make mad."

Street Car Regulation.

(Chicago Chronicle.)
No decision the supreme court has rendered in a long time will have a more important bearing on the comfort and well being of this community than that in regard to what is called "the street car comfort ordinance," the enforcement of which the court says can not be enjoined. This ordinance requires the proper

heating, ventilation and scheduling of street cars and the providing of a sufficient number of them to prevent overcrowding and inflicts a fine of from \$25 to \$100 for each offense. The city brought 600 or more suits against the traction companies for violations of this ordinance and at last one of them applied to Judge Mack for and was granted an injunction restraining the city from prosecuting these suits. The grounds were that the ordinance was unreasonable and could not possibly be complied with and that the suits by reason of their multiplicity would do irreparable harm.

The supreme court reversed Judge Mack and dissolved the injunction. It did not discuss at all the unreasonableness of the ordinance, but gave two reasons for its decision. One was that the suits did not threaten the companies with irreparable harm and the other that they were criminal proceedings and therefore not within the jurisdiction of a court of equity. It is estimated that by the reopening of these enjoined suits the city may recover \$2,000,000 in fines, but that is not the greatest benefit which may be expected from the decision. Its greatest value lies in the fact that it places the regulation of the traction service fairly and squarely within the power of the city.

Mr. Rockefeller Is Perfectly Sincere.

(Chicago Examiner.)
You have read lately Mr. Rockefeller's interesting interview on the trusts and on what he calls "curbing business a menace to the nation."

Smoothing his wig and rolling his eyes upward, he says, solemnly: "If we limit opportunity we will have put the brake upon our national development." And he asks: "Will the individual strive for success if he knows the hard-won prize is to be snatched from his fingers at the last by his government?"

We think the individual of the Rockefeller type would still strive. We have noticed that the burglar strives for his booty although he knows that "it may be snatched from his fingers at the last" by the policeman.

And we think that Mr. Rockefeller and Mr. Rogers and the others would continue "to strive" even if there were some slight danger of being caught.

Of course the burglar would like to wipe all criminal laws from the statute books. He would vote as cheerfully for the abolition of the police force as Mr. Rockefeller is going to vote for Mr. Hughes. Still, the burglar manages to struggle on in the face of "shameful government interference." Perhaps Mr. Rockefeller could struggle on also, even though the laws were made to apply to him.

Mr. Rockefeller says: "We are too young as a nation for this fearing down." Are we? Are we too young to be honest? Are we too young to run our government sincerely for the people in it?

We are too young to tear down what? Are we too young to tear down a system that has given Mr. Rockefeller a thousand millions of dollars—a thousand millions of criminal money obtained in violation of law?

When shall we be old enough "to begin tearing down" a system that allows a man to bribe our public officials, to own judges, to destroy other business men, taking hundreds of millions of dollars in sheer plunder?

Mr. Rockefeller has a grandson. When that grandson is sixty years old shall we be old enough to begin to be honest in government? It is a matter of plain mathematical calculation that Mr. Rockefeller's grandson, taking the present Rockefeller fortune at compound interest, will own more money than there is in the United States today. If something were not done in the line of what Mr. Rockefeller is pleased to call "tearing down," there wouldn't be enough money, enough property, in the United States to give that little hairless grandson the amount of money that will be due him, with compound interest, on the thousand millions already rolled together by his hairless grandfather.

Mr. Rockefeller is sincere enough. He imagines himself to be a fine, noble character. He thinks he has rendered fine service in taking a thousand millions from the people.

He thinks we are too young to be honest, too young to enforce the laws. He says it is a shame to denounce the beef trust. It was disgraceful to make that attack.

We ought to be thankful to Mr. Rockefeller—thankful that there is no more cunning underneath that wig. We should be thankful that he has begun to talk in his old age—begun to tell the truth. The American people, apparently, have not done very much thinking thus far; Rockefeller may force them to do it.

When he tells you your nation is too young to be a republic; when he tells you that wholesale thievery, shameful disregard of law must go on indefinitely, you will know what to do.

Cats' fur has no oily substance in it, and consequently is more easily wetted through than that of most other animals.

Wives of Politicians.
Much rather banal praise is being bestowed on a Southern woman because recently she prodded up her big, lazy, good-natured husband into making the race for a senatorship, and making it successful, says the New York Mail. That is what women are doing right along. Every year scores of men try to become governors or senators for no other reason than because an ambitious wife gave them no comfort until they entered the race. While the sex is clamoring unsuccessfully for collective admission into political life, individually it is furnishing the motive power for many imposing public careers, for which the man in the case gets the sole credit.

In politics it pays to have a wife. Perhaps it pays in any calling. It is certainly a good thing in pugilism and baseball, and Lester Ward, the sociologist, makes it general when he says: "The mental conditions attending conjugal love are the best possible for human achievement." The eagerness with which septuagenarian, octogenarian, nonagenarian and centenarian statesmen take unto themselves a bride proves that they realize her political availability as well as her general recommendations. Men with a dash of opportunism in their makeup marry nowadays for political effect. They welcome the publication of interviews with their better halves. In the stress of a bitter campaign, sometimes the only kindly and appreciative words they get anywhere comes in these interviews from inside the family; possibly the politician writes them himself. A poster of the candidate's wife may be his most effective campaign document; it proves that somebody who knows him well is able, nevertheless, to stand for him.

It is not without significance that in the administration of the only bachelor president our country has ever had, that remained a bachelor until his term was up, the republic broke in twain and nearly went to smash. There is only one instance in our political history where it served an ambitious man not to have a wife. That man was Van Buren, who, being a widower, was privileged to show toward "Peggy" Eaton, a friendliness which was impossible to the other members of Jackson's cabinet, they having wives with social standards of their own. His attitude won "Old Hickory's" powerful gratitude, and by and by the American people made their leading widower president.

Wherever you see a politician going dead wrong, wherever you see a hated and mercenary boss, you see a man who is either a bachelor, a widower, a loose liver, a misnamed man, or the husband of a nonentity, like the wife of "Jethro Bass." If a politician has a wife of brains and character, and is devoted to her, it does not argue that he will succeed—particularly if he stacks up against another politician similarly fortified and recommended. But it does assure him against becoming that type of the politically abnormal, a boss.

STRANGE DISEASE MENACES A TOWN

Doctors Unable to Diagnose It, and Several Hundred Persons Are Afflicted.
New York, Oct. 26.—The World says that an epidemic of disease, which doctors have confessed themselves unable to diagnose, and which has assumed menacing proportions in the town of Mariners' Harbor, on Staten island, has thrown residents of that place into a panic. Hundreds of persons have sold or closed their houses and moved to other parts of the island.

The disease already has brought two victims to the grave, and there are at present under treatment in the town over 300 cases. Its victims are first attacked by a high fever and soon red blotches cover their bodies. At its inception the malady confined itself to the ranks of Austrian laborers, nearly 3,000 of whom have been brought to the town from Buffalo, N. Y., recently to construct new factory buildings.

Within the past week, however, the disease has spread to the town people.

FIVE YEARS IN PENITENTIARY

Is Punishment Meted Out to Fred Pharris by Jury at Lexington.

Lexington, Ky., Oct. 26.—It required the jury in the case of Fred Pharris, former attendant at the Lexington Insane Asylum, charged with the murder of Fred Ketterer, an inmate, but one hour and a half to find Pharris guilty of manslaughter, and he was sentenced to five years in the penitentiary.

The verdict was reached at 11 o'clock last night, and followed some strong testimony against the defendant. At the close of the evidence for the prosecution, the defense moved to dismiss the case on peremptory instructions, but Judge Parker refused to grant the request, saying that the testimony had been too strong, and the case was given to the jury.

The cases against Daniel Adams and J. M. Claggett, also former attendants at the asylum, who were jointly indicted with Pharris, will be called today.

Horace Champion, the fourth attendant indicted has not yet appeared here nor been placed in custody. He is said to be in Alabama.

CAPITALIZATION WAS INCREASED

PADUCAH SADDLERY COMPANY RAISED CAPITAL TO \$32,500.

Mr. J. W. Skelton Has Disposed of the "Skelton House" on Sixth—Other Business News.

The board of directors for the Paducah Saddle Company have held a meeting and increased the capitalization of this concern from \$25,000 to \$32,500. This raise is necessitated on account of the constant increase of business enjoyed by the concern, and also because of the rise in the cost of leather.

Hostelry Changes Hands.

Mr. J. W. Skelton of the "Skelton House" on North Sixth between Jefferson and Monroe streets has sold out to Messrs. G. C. Olvey and W. P. Gardner, both well known business men of this city. The latter have changed the name of the hostelry to the "Southern Hotel" which they will manage hereafter. Mr. Skelton and family will move into a private residence.

Dental Offices.

Dr. C. E. Whitesides, the dentist formerly of this city left this morning for his home in Nashville, after spending Thursday night and yesterday here on business. He now has charge of the office maintained at Nashville by the Cincinnati company in which he is interested, and which operates a chain of dental offices over the country. At present the company has its headquarters in Cincinnati with branches at Cleveland, Ohio, Erie, Pa., and other northern points. As soon as Dr. Whitesides gets back to Nashville he will arrange for a branch office to be started at Birmingham, Ala., Montgomery, Ala., and other southern cities.

Goes To Boston.

General Superintendent W. I. Sturdevant, of the light and power company, will in a few weeks be transferred from the Paducah properties of Stone & Webster to the latter's headquarters in Boston. He came here fifteen months since from Seattle, Wash., where he was associated with the syndicates interests there. He is a very efficient official in his line and will be assigned to some important point by the company. His successor for this city has not been named yet but will come before his departure.

SKYSCRAPERS RUN UP IN A HURRY

Even the Tallest Buildings Take Less Than a Year to Build.

New York, Oct. 26.—Three months ago there was nothing but a big hole in the ground where a new skyscraper was to stand. Today on that spot stands the skeleton of a twelve-story steel building. The granite and cut stone work of one story is in place, the hollow tile floors and partitions of eight stories are ready, the plumbing, electric installation and elevator construction are well under way, and carpenters are now putting in temporary stairways and frames. Although only started on August 1, it is already possible to get a definite impression of what the new building will be like when completely finished.

It is a striking example of the rapidity with which skyscrapers are now put up by American builders. The constant growth of business, requiring larger office accommodation, and the increasing value of the land upon which big buildings must be erected, have led to a demand for the utmost speed in building construction, so that time has become more important than cost in new buildings, every month's delay meaning a loss of thousands of dollars in rentals or interest. Even the tallest buildings take less than a year to build.

Postmaster Under Arrest.

Danville, Ill., Oct. 25.—Firman Snodgrass, postmaster at Borton, was arrested Monday on a charge of willfully holding at the Borton postoffice six days a letter addressed to Earl Combs. The penalty for the offense is fine or imprisonment or both. The complaint was made by Combs, who was recently arrested on complaint of Snodgrass, who charged him with obstructing the mails. Snodgrass was arrested by Deputy United States Marshal D. G. Williams of this city, and was taken to Paris, where his preliminary hearing was held yesterday afternoon before Commissioner Shopp. He gave bond and was released.

The towering Washington monument, solid as it is, cannot resist the heat of the sun, poured on its southern side on a midsummer's day, without a slight bending of the gigantic shaft, which is rendered perceptible by means of a copper wire, 174 feet long, hanging in the center of the structure and carrying a plummet suspended in a vessel of water.

AMONG THE SICK PEOPLE

MR. HERMAN FRIEDMAN GRADUALLY RECOVERING AT THE HOSPITAL.

Mr. E. W. Wilcox Was Moved From Hotel Craig to Riverside Hospital—Hog Attacked Pryor.

Mr. Herman Friedman is recovering from his spell of illness in his private ward at Riverside hospital. Mrs. L. A. Urbansky was operated on for tumor at Riverside hospital and is much better.

Mrs. Leslie G. Thompson is much better at their home on Monroe street where she has been confined with an attack of lagrippe.

Mr. Charles Snider continues recovering at his home in the St. John neighborhood of the county, from the injuries inflicted when last Sunday his frightened horse threw him from the buggy near Wallace Park.

Mr. E. W. Wilcox has been moved from his room in Hotel Craig to a private ward in Riverside hospital for treatment, he having been ill for the past two weeks. He is associated with the Independent Telephone Company.

Attacked By Swine.

Yesterday morning Charles Pryor, four miles from this city on the Clark's river road, was trying to catch a hog to bring the animal to town for sale when the swine turned on him in fury, and rushing at Pryor began a hard fight. The hog caught Pryor's right hand in his mouth and nearly shewed off several fingers. Pryor finally beat him off and leaped a fence to a place of safety.

ANY HAND ON AUTO BRAKE

Proposed "Law of Roads" Hard on the Chauffeur.

Chicago, Oct. 26.—New York's "law of the roads" is to be copied by Chicago. The proud and disagreeable smelling auto is to be humbled to the dust; impatient drivers who for years blocked street crossings are to be taught their places; delivery wagons which have usurped the street curbs since time immemorial are to be relegated to the alleys; small youths under 16 who have been running over pedestrians and dogs indiscriminately are to be removed from the drivers' seats—these and other improvements in the "law of the roads" were made yesterday in an ordinance which the city council is to be asked to pass.

It was a hard problem which the judiciary committee of the city council, with Alderman Dever sitting in the chair, tackled yesterday when they began to make rules governing traffic on Chicago's streets. An entire afternoon was used up in listening to Chief Collins' explanations of why this and that should be done so that the lives and property of pedestrians could be safely guarded.

It is expected that the autoists will make a stout protest against having to stop their whizzing machines every time some corpulent old gentleman or timid old lady raises a warning hand when Dobbin, the family horse, snorts in disgust at the approaching machines. However, if the ordinance is passed with the "frightened horse" provision in it the man with the goggles and leather cap will have to stop at the warning hand or be taken to the nearest police station by a policeman.

Grocerymen, and especially the small dealers, and others who hire small boys to drive their delivery wagons are also expected to protest against the ordinance. It was stated in the committee meeting that many small storekeepers hired mere children to drive their wagons. In order to make the section apply only to boys who were hired to drive wagons the words "for hire" were inserted.

Objections were also made to the provision prohibiting persons from riding on the back of vehicles, but Alderman Dixon declared that this provision would prevent damage suits resulting from injuries received by persons riding in this way, and it was finally approved.

The team owners who are fighting the wide tire ordinance now in force won the point they are contending for when the aldermen decided to have a new ordinance drafted and reopen the entire matter to discussion.

To Prevent Rabies.

Shelbyville, Ky., Oct. 26.—Lucien Harbison, the 16-year-old son of Eugene D. Harbison, who was bitten on the face by a dog a week ago, was taken last night to Chicago, where he will undergo the Pasteur treatment for prevention of the rabies. Nothing was thought of the matter at the time the boy was bitten, but afterward he saw animal gave every indication of having the rabies and was killed.

GRIDLEY PAYS FOR ASSERTION

JURY GAVE W. W. SPENCE
JUDGMENT FOR \$250
AGAINST C. E. GRIDLEY.

GRIDLEY CLAIMED THAT
SPENCE HAD LIED

WILLIAM POWLEY WAS PAID
\$250 TO WITHDRAW SUIT
AGAINST COOPERAGE.

The Suit of Dr. J. T. Reddick Against
Colonel Sol Vaughan Temp-
orarily Continued.

W. W. Spence yesterday afternoon got judgment for \$250 against Charles E. Gridley for alleged slander, in the circuit court where the matter was tried. The defendant will ask for a new trial, and if this is denied, the litigation will be carried to the appellate bench.

Spence's horse got scared, threw out the owner and damaged the buggy some months ago. The horse was frightened at Gridley's automobile on the Cairo Pike. Spence sued and got \$73 damages against Gridley for the mishap. Afterwards Spence was passing through the courthouse hall, where several parties were talking, and one remarked that he was a good man. Gridley was in the crowd and said that Spence had sworn a lie on the witness stand during trial of the suit for damages to the buggy some months before. Spence then filed suit for slander against Gridley and now gets a judgment.

In the suit of Wm. Powley against the Paducah Coopers company the defendants compromised the action by paying Powley \$250 for loss of his eye which was destroyed by a splinter penetrating same while he was working at the defendant's plant. Charley Wheeler, a lawyer, was on the losing side, and Judge Lightfoot on the winning side.

The jury brought in a verdict in favor of the defendant in the suit of M. T. Spann, administrator of Mrs. Thomas Everitt, against the Illinois Central railroad. Mrs. Everitt was crossing the railroad track just outside Mechanismburg when struck and killed by a train. She was hard of hearing, and her son-in-law, M. T. Spann filed suit for damages, but lost.

There was continued over until the 23rd day of this term the suit of Dr. J. T. Reddick against Sol C. Vaughan for \$1,600 plaintiff claims due him for advancing premiums upon the life insurance policy of Mr. Vaughan. The temporary postponement was granted on account of Colonel Vaughan's chief legal counsel, Hon. John K. Hendrick, being out of the city at present. On return of the latter it will be taken up.

There was set for trial on the twenty-second day of the session the action of Jones against Harth Bros. Grain company.

The defendant moved for new trial of the suit of Edward Alexander, administrator against the Paducah City Railway company. The court has not yet passed on the application for a second hearing. On first trial several days ago Alexander got judgment for \$750 against the street railway on account of fatal injuries received by plaintiff's little girl who was struck by a car on South Sixth near Tennessee. Hendrick, Miller & Marble are on the winning side, and Charley Wheeler on the losing side.

The defendant's demurrer to plaintiff's petition was overruled in the suit of Dr. L. B. Howell against The Traveler's Accident Insurance company. Howell held a policy in the company and took sick with appendicitis. He now sues the company for \$270 claimed due him under the head of "accidents" on account of the sickness and operation he underwent. The company refuses to pay the claim on the ground that affliction with appendicitis is not an accident.

The jury orders part of certain land in the county sold in the suit of William Stanley, administrator, against R. P. Stanley.

The plaintiff moved to have taken as confessed the petition in the suit of Bloodworth vs. Colver. No action was taken on the motion.

G. W. Thompson was excused from further service on the petit jury, and Joseph Ullman substituted.

There are no cases set on the docket for trial today, so on adjournment yesterday afternoon Judge Reed dismissed all the jurors until Monday morning, when they come back to resume trying suits. Today the judge will devote to hearing motions, issuing orders and transacting other matters of this nature.

It is stated that the Abbe Lelanne the newly-found cure of Chantennay has sent in a claim for the reward of 40 pounds offered to anybody giving the first information about him. "I was the first to give information as to my own identity," he says, "and I consider that I am entitled to the reward."

WRITE UP FOR PADUCAH.

Representative of The Engineering
News of New York Now Here

Mr. William S. Crandall of New York, is now in the city for the purpose of securing information concerning the municipal affairs of this city to be used in a write up of Paducah that is to appear at an early date in the Engineering News of New York, a publication devoted to municipal affairs.

Mr. Crandall, the special representative, is visiting the fifty largest cities in the United States, and while at Memphis he concluded to make a trip to this city, of which he had heard much favorable mention, and yesterday afternoon and evening he spent the time with Mayor Yeiser, Auditor Kirkland and President Wilhelm of the board of public works. Mr. Kirkland took the visitor out for a drive over the city, and Mr. Crandall was well pleased to note the progress of the city, and was greatly surprised to learn that Paducah did not have even one millionaire among its inhabitants.

Mr. Crandall is a man of much experience in municipal affairs and for over twenty years past he has been connected with municipal journals and visited every city of consequence in America.

RAIDS CAUSED

BIG SENSATIONS

Parkhurst Society Officers and Police Get Busy in New York.

New York, Oct. 26.—Evidence of the "wide open" character of some parts of the city is to be submitted by the Society for the Prevention of Crime to the police department today, in fulfillment of the promise made by the Rev. Dr. Charles H. Parkhurst at the Jefferson Market Court on Wednesday. The evidence consists largely of reports of agents of the society who investigated complaints against pool-rooms and dens of vice. Many of the reports will be in the form of affidavits when they are turned over today to Third Deputy Police Commissioner Mathol.

Parkhurst Society officers, probably to demonstrate its charges that vice was flourishing, raided three alleged disorderly houses in the Tenderloin precinct late last night.

The police later made five raids. In all over fifty arrests were made. The raids caused a big sensation in the district.

The police shake-up yesterday, by which eighty-four of the eighty-five police captains in Greater New York were transferred, will speedily be followed by other wholesale changes. It is expected that every patrolman in the city will be shifted. The transfer of the captains was the most radical police shift the city has ever seen.

BOTH SHOT BY UNKNOWN MAN

Fremont, O., Citizens Engage in Running Fight With Stranger.

Fremont, O., Oct. 26.—As the result of a running fight with a mysterious man last night, Louis Johnson of this city is suffering from a bullet wound in the right leg, and Frank Keeler may die from the effects of a wound in the groin.

The mysterious man had been repeatedly seen loitering around the house of Johnson and his son-in-law, John Weber, who lives next door.

Last night Keeler, who lives at the Weber house, saw the man peering through Johnson's window. He went to the Johnson home and informed the latter. The two immediately started after the man, who pulled a revolver and fired at his pursuers. One of the bullets struck Keeler in the left side just below the kidney, and the other passed through Johnson's leg. Both men continued the chase until they fell exhausted from loss of blood and their assailant escaped.

Waverly, Tenn., Oct. 26.—John Marberry of the second district became involved in a difficulty with his father-in-law, John K. No arrests have yet been made, as Stewart says he will not prosecute.

MORGAN OUTBIDS KING EDWARD

Pays \$20,000 for the Famous Cluny
Bible, Which the King Also
Wanted.

New York, Oct. 26.—In competition with King Edward of England, who sought it as a memorial to his mother, the late Queen Victoria, J. Pierpont Morgan has secured the original Cluny Bible, in illuminated text, on parchment, the work of the Cluny monks, in France, and more than 200 years old. With it he also has obtained an illuminated copy of the original order of arrest for John Bunyan, on a charge of heresy.

The Bible was considered one of the finest works of art in France. Mr. Morgan is said to have paid \$20,000 for the Bible and manuscript. They were assessed here at \$25,000, and duty placed at \$4,000. Yesterday Mr. Morgan's brokers paid the duty.

Ha! Ha! The Long Looked For Has

AFTER 17 YEARS IN THE HANDS OF RIP VAN WINKLE, BUT WE HAVE COME TO STAY
LOOKOUT FOR US, WE'LL BE IN TO SEE YOU ON JANUARY 1ST, 1907, THE PURE FOOD LAW,
THE MASTODON, THE BIGGEST ON EARTH.

To My Friends, My Enemies and the Public at Large:

I have this day changed the name of my place of business, at 116 South Fourth street, between
Broadway and Kentucky avenue, to

The Home of Willow Spring

of Coon Hollow, Nelson county, Ky., a pure SOUR MASH WHISKEY, distilled by A. Cummins, distiller, registered distillery No. 70.

Willow Spring is a PURE LIQUID FOOD, sanctioned by the pure food law of the State of Kentucky. This Whiskey is made of 25 bushels of rye, 15 bushels of malt and 60 bushels of corn and the CRYSTAL WATERS of Willow Spring, Nelson County, Kentucky. There is no adulteration of any kind in this whiskey. I offer a \$10,000 Reward to any chemist who will find one grain of impurities in this whiskey. My wines are pure California vintage guaranteed by one of the oldest houses in St. Louis, David Nicholson, whose name is attached to the label guarantees purity. Therefore they are another of my liquid foods made from the delicious grapes of California. My blackberry brandy is guaranteed to be pure, made from the pure, delicious fruit, and the brandy is an imported Cognac guaranteed by the celebrated firm of Gordon & Dilworth. Another liquid food that can be used with impunity for sickness.

My Apple Brandy, one of the hardest of the beverages to get pure, is distilled from pure and mellow apples at McMinnville, Tenn., by Hennessy Bros. apple brandy distillers of McMinnville, Tenn. Another of my pure liquid foods made from apples.

I handle but one brand of Beer, the purest in the United States of America, made by the Anheuser-Busch Brewing Association, of St. Louis, Mo., both in draught and in bottles—the renowned Buschweiser. It may have its equals, but none superior. Another of my liquid foods, made from pure malt and hops.

My Dear Friends and Patrons: Remember that everything dispensed over my bar is PURETY and guaranteed by the American Pure Food Laws of our State. Thank God for the pure food laws. They have been seventeen years coming, but have come at last. On the first of next January these laws will go into force in the entire United States of America and I am one of the few that has anything in the drinking line that will be endorsed by the National Pure Food Laws. These laws are going to be enforced as the government never before enforced a law in our great country. There will be no more so-called 10 and 15-year-old whiskeys made yesterday by compounders and rectifiers, as the law will compel them to put on the labels exactly what it is, if it is rectified or compounded, made of drugs and chemicals. There will be no more so-called blends, for they cannot use neutral spirits and without spirits—a blend would cost as much as straight goods, and they cannot be labled with fictitious ages and names of first-class whiskeys. It will be death to blenders, rectifiers and so-called compounders.

Remember, the only place in our city where you can get Purity, both by the drink, quarts, pints or half-pints, is at THE HOME OF THE WILLOW SPRINGS, liquid food, 116 South Fourth street, Paducah, Ky. Remember the place and don't stumble and make a mistake or your head will tell you the next day that you have been drinking the vile and poisonous stuff of so-called blenders and rectifiers made yesterday in the big vats upstairs. So walk a few blocks more and come to the place where pure liquid foods are dealt to you in all their purities, at your friend's.

WATER CONTRACT TO BE VOTED ON AT NOVEMBER ELECTION

REPORT OF JOINT LIGHT AND WATER COMMITTEE ON NEW CONTRACT BETWEEN THE CITY OF PADUCAH AND THE PADUCAH WATER COMPANY.

Due to the fact that the contract existing between the City of Paducah and the local water company for fire hydrants expires during the current month, it was incumbent upon the general council to negotiate for such service covering the remaining period which the franchise of the water company still has to run, to-wit: eighteen years.

After several conferences between the joint light and water committee and the officers of the water company, a scale of rates for fire hydrants was agreed upon by the committee and the water company. These rates have been embodied in a contract which will be submitted to the general council for such action as the wisdom of that body may determine. If the proposed contract is favorably acted upon by the general council, it must be submitted to the voters of the city at the next election and affirmatively ratified by not less than two-thirds of the votes then cast upon the question before a contract between the city and the water company can be finally executed.

It is therefore worth while for the voters of the city to carefully consider the terms of the proposed contract before casting their votes at the coming election, and if it appears that the proposed contract is to the advantage of the city, then to register their approval thereof upon their ballots.

In order that the voters may have an opportunity to become fully advised regarding the terms of the proposed contract, a copy of the same is herewith submitted, which reads as follows:

"Section 1. That the City of Paducah, Ky., agree to rent and does hereby rent from the Paducah Water Company its successors and assigns, four hundred and eleven (411) double nozzle fire hydrants now established in said city for a period of eighteen (18) years from the passage and final approval of this ordinance, after an election by the people as hereinafter provided. The annual rental for each of said fire hydrants, which the City of Paducah hereby agrees to pay for the first ten (10) years of said term, shall be twenty (\$20.00) dollars and the annual rental for the remaining eight (8) years shall be fifteen (\$15.00) dollars, (unless the said city shall sooner purchase water company's plant, with six (6) per cent interest upon deferred payments. The payments of said rentals shall be made as provided in the original ordinance contract.

"Section 2. All additional hydrants on extensions of mains that may be erected hereafter by the Paducah Water Company, its successors or assigns, as provided in the original ordinance contract during the said eighteen years, shall be charged and paid for as provided in section one hereof; but at the expiration of ten (10) years from the time this ordinance shall have been finally approved, as set out above, all the then fire hydrants shall be charged and paid for at the uniform rate, as above provided and the contract therefor shall expire at the end of the eighteen years fixed in section 1.

Section 3. Before this ordinance shall become effective it shall be submitted to a vote of the qualified voters of the City of Paducah, Ky., at the general election to be held in said city on the 6th day of November, 1906, the said vote to be taken in the manner and as provided by law for the submission of public questions to the voters of said city.

Section 4. This ordinance shall take effect and be in force from its passage, approval and ratification by the qualified voters of the City of Paducah, Ky., and a written acceptance of its terms and conditions by the Paducah Water Company filed with the clerk of the City of Paducah, Ky., within ten (10) days after the official certificate of its approval at the popular election."

At the present time the water company has installed for the use of the city 411 fire plugs, which under the old contract are rated and cost each year as follows:

150 fire plugs at \$40.00	\$6,000.00
30 fire plugs at \$30.00	900.00
231 fire plugs at \$25.00	5,775.00
Total	\$12,675.00

Under the proposed contract this same service would cost the city but \$8,220.00—for each of the first ten years of the contract, a saving upon the number of hydrants now installed of \$4,455.00—per annum and for the ten year period a saving of \$44,550.00.

For each of the last eight years which the franchise has to run, the cost for 411 hydrants would be \$6,705.00—a saving to the city of \$6,310.00—per annum or of \$50,480.00—for the entire eight years of the franchise, making a total saving to the city between the existing con-

WOULD SEGREGATE NEGRO

DR. WASHINGTON GLADDEN SEES ONE SOLUTION OF PROBLEM.

Oberlin, O., Oct. 26.—Segregation of the negro in three or four southern states was the solution of the race problem offered today by Rev. Washington Gladden before the annual convention of the American Missionary society.

"I can see no other outcome of a strife of this nature than the segregation of the races," said he. "A portion of the southern domain would have to be set apart for the blacks; we should probably have three or four states, of which the population would be wholly composed of negroes, governing themselves and represented in the congress at Washington. The blacks would suffer by being thrown on their own resources in their poverty; it would take them several generations to work out the problem of civilization. To the whites the prosperity in which they are now rejoicing would suffer a severe, perhaps a deadly blow."

"But it is idiotic to talk of deporting the negroes to some other country; they are here and here they must stay, and their home will be in the southern portion of the United States."

"The problem as it confronts us involves the principles on which our nation is founded. It is well stated in the words of Carl Schurz: 'There will be a movement either in the direction of reducing the negroes to a permanent condition of serfdom—the condition of the mere plantation hand alongside the male—practically without any rights of citizenship, or a movement in the direction of recognizing him as a citizen in the full sense of the term.'"

"Such a movement as that described in the first alternative is now in full progress. In the South the conditions are rapidly becoming more unfavorable to the negro. The manifestations of Governor Vardaman which sometime will be indorsed by the people of the state, and the recent campaign in Georgia, in which the candidate who most unequivocally favored the repression of the negro was overwhelmingly elected, show the drift of opinion in that section."

"To keep 4,000,000 in slavery who were born and reared in that condition was one thing; to reduce 9,000,000 to serfdom after they have been fifty years free is quite another thing. Senator Tillman's prediction that race struggles of a very bitter nature are likely to be frequent and continuous in the future is not without probability."

ONLY ONE CAPTAIN IS UNDISTURBED

Most Sensational Shape-Up New York Police Have Ever Experienced.

New York, Oct. 26.—The biggest police shake-up in the history of New York was announced today, eighty-four of the eighty-five police captains in the city have been transferred to new precincts. The only captain not disturbed is Schottman, who has made good in the Tenderloin and has closed up every resort in that district the police can reach.

"The men must make good or get out of the district," was Commissioner Bingham's explanation.

He did not believe the story of police corruption when he first entered the district. Now he does, hence the shake-up. It means that the coming election will be a clean one.

WILL INSPECT KENTUCKY SITES

Major Brackett Designated to Come to This State by Super-vising Architect.

Washington, D. C., Oct. 26.—Major Fred Brackett has been designated by the supervising architect, his superior officer, to inspect public building sites offered in Owensboro, Bowling Green and other Kentucky cities. First, however, Brackett is under orders to inspect certain sites in Pennsylvania, so he will probably not be ready to leave for Kentucky cities where federal buildings are proposed, and examine every site available. Upon his return he will report recommendations to the department, and thirty days thereafter final action will be taken upon the sites.

BUY BEFORE THE ADVANCE

A Splendid investment for Quick Profits. Buy now the Stock of the PITTSBURG-MANHATTAN Mining Company, of Tonopah, Nevada. 100,000 Shares--Par Value \$1.00, Fully Paid and Non-Assessable--Offered at 10 cents per Share

Property and Location

The most notable facts of the company are that it owns proven gold- and silver-bearing land; not only is the ore there, but it is there in quantities, an apparently inexhaustible supply of pay ore. The Company owns the Gregory Group of five claims situated in the famous MANHATTAN DISTRICT, and also has several claims in the LONE MOUNTAIN DISTRICT. Both these Districts are the richest in the WORLD. The tunnels have been opened up on the Lone Mountain claims and indications point to striking large bodies of high-grade ore carrying values in Gold and Silver.

Mining Has Built Many Great Fortunes

Nothing so surely offers large returns as a good Mining Stock. Probably you do not realize how many people there are who are enjoying a regular income as a result from investing in Mining Stocks. There are thousands of them, and they are largely those who bought their stock when the opportunity was first offered to secure shares at a low price before the company had begun to pay dividends. Stocks of many mining companies have advanced from a few cents a share to prices ranging from \$100 to \$1500 a share in value, and besides have paid back to the investors in dividends many hundred times what they first invested. Many of the companies are paying from 100 per cent. to 1000 per cent. in dividends on the first price of the stock. To grasp this opportunity and purchase stock in the PITTSBURG-MANHATTAN MINING COMPANY at 10 CENTS a share means success to you; and that means houses, good living, travel, education and social privileges for your children. If you do not grasp this opportunity and secure a good share of wealth you are likely to be classed as a failure. The proposition is in the hands of men whose ability and integrity cannot be questioned, and these men pledge themselves to see that each and every investor in the enterprise receives an equal division of the profits. Experts have examined the property, and it is the universal opinion that it has a wonderful future.

Organization

The Company is organized under the laws of the state of Nevada, CAPITAL STOCK OF \$1,000,000, DIVIDED INTO SHARES OF THE PAR VALUE OF \$1.00 EACH; 400,000 SHARES ARE IN THE TREASURY, which will be sold as required for development from time to time.

10 Cent Per Share, Cash or Installments

We want to impress upon you the fact that you don't have to be rich in order to become a shareholder in this splendid Company. The price of shares is only 10c, and you can buy as few as one hundred (\$100), \$10.00 worth. If you are not in a position to pay cash for all the shares you desire to own we will accept a small payment down with the order, the remainder to be paid in five monthly installments. Suppose you want to invest \$10.00 in this company; simply send us \$2.50 with your order for 100 shares, and thereafter \$1.50 per month for five months and the stock will be paid for. It's very easy--anyone can afford to do this. Almost everyone has enough money in a year to buy them an interest in this Company which would make them independent for life. Send in your order today. The following table will show you just how many shares your money will buy, the amount you send if you want to pay all cash, and the plan for monthly payments:

What Your Money Will Buy

100 shares	10.00 cash or \$ 2.50 cash and \$ 1.50 per month for 5 months
200 shares	20.00 cash or 5.00 cash and 3.00 per month for 5 months
300 shares	30.00 cash or 5.00 cash and 5.00 per month for 5 months
400 shares	40.00 cash or 5.00 cash and 7.00 per month for 5 months
500 shares	50.00 cash or 5.00 cash and 8.00 per month for 5 months
600 shares	60.00 cash or 10.00 cash and 10.00 per month for 5 months
800 shares	80.00 cash or 10.00 cash and 14.00 per month for 5 months
1,000 shares	100.00 cash or 20.00 cash and 16.00 per month for 5 months
2,000 shares	200.00 cash or 40.00 cash and 32.00 per month for 5 months
5,000 shares	500.00 cash or 100.00 cash and 80.00 per month for 5 months
10,000 shares	1,000.00 cash or 200.00 cash and 160.00 per month for 5 months

In offering this stock we present it as a solid and safe investment, not a speculation. The resources of their properties and the amount of rich ore seems so inexhaustible that WE RECOMMEND THE PURCHASE OF THIS STOCK TO EVERY INVESTOR.

CLAIMS HE WAS SKINNED IN SKIN-GRAFTING GAME

Cincinnati Man Wants \$10,000 Damages from Prominent Surgeons and Physicians.

Cincinnati, O., Oct. 26.—Alleging that they took more than the amount of cuticle bargained for under a skin-grafting contract, Wm. G. Doll yesterday entered suit for \$10,000 claimed as damages against J. S. Atkins, George A. Fackler and John C. Oliver, the latter two prominent Cincinnati physicians and surgeons.

The plaintiff says that he agreed that a strip of skin one by six inches should be taken from his leg, but while he was under the influence of an anesthetic skin was cut from both legs to the extent of forty-two inches.

The case grows out of an automobile accident in which Atkins was injured, and it was for his benefit the skin was taken.

Arrangements have been completed for the annual memorial services to be held tomorrow afternoon at 3 o'clock at the Broadway Methodist church by the Red Men's lodge of this city. The ceremonies are unusually interesting and the entire public is cordially welcomed to attend them.

The lodge members meet at 2 o'clock at their assembly hall on North Fourth street, and forming a body, march to the church where the front seats are reserved for the brethren. The exercises will be presided over by Mr. Lewis L. Bebout, the past great sachem for Kentucky Red Men. This is the second service of this character held since the secret order instituted a subordinate body here, the other being in the spring of last year.

The program for tomorrow is as follows:

Order of Service.

Prelude—Organ—By Mrs. Samuel H. Winstead.

Opening ceremonies from ritual. Invocation—By Rev. T. J. Newell. Hymn—"Nearer My God To Thee."—By Mr. Robert Scott.

NEW MALADY.

Makes Its Appearance at Pellville, and Baffles Doctors.

Pellville, Ky., Oct. 26.—A new disease has developed here, which baffles the skill of the medical profession. It begins by a pimple or two starting, which grow and spread until the victim is nearly covered with itching sores, which, after a few weeks, turn to boils. Guy Temple has been laid up for several weeks with the malady, and a host of others are afflicted so they cannot work. The doctors say they never saw anything like it, and are puzzled considerably. It appears to be an epidemic and may stop when cold weather comes.

The proposal to extend employment in the British civil service to ex-soldiers and sailors is bitterly opposed by labor leaders. The fear is that such men will be disposed to accept small pay in addition to any pension they may have and thus reduce wages.
